## SEVEN LIVES LOST

### IN LAKE WINNIPEG

Steamer Founders and Captain  
and Five of the Crew  
Go Down

(Bulletin Special)

Winnipeg, Aug. 29.—The steamer Princess has foundered in Lake Winnipeg and six are drowned. The news was received this afternoon. The Princess on Sunday last after a long fight with the elements sank to the bottom and the captain, John Hawes, and five others found watery graves. The details of the tragic occurrence read like a thrilling episode from the annals of ocean tragedies. Besides the captain five others were drowned, named, Flora Macdonald, and Yola Johnson of Selkirk, both stewardesses, Joe Aronson, Poplar Point, Loftus Gudmanson of Selkirk, and Charles Grayeyes of Gilt. Miss Flora Macdonald was a niece of O. Anderson of the Winnipeg Telegram staff and also of Mr. A. Macdonald, 73 Carlton street. As all the drowned were residents or well known in Selkirk, the news of the tragedy has cast deep gloom over that town.

The steamer Princess left Poplar Point, which is situated about 200 miles up the lake, at 4.30 last Saturday afternoon. She was bound for Selkirk and carried a cargo of wheat between George and Swampy Islands. After passing George Island the sea grew very rough. This was about 6.30 in the evening. The sea gradually grew more tempestuous and about three hours later the alarm was raised that the boat had started to leak. All hands worked hard to keep the water down but the most strenuous efforts were futile. At about 3 o'clock in the morning the firemen and engineers were compelled to abandon the fire-  
room. The water by this time was about up to their necks and they only clung to their posts with the grim determination of men who were fighting for their own lives and those of the crew and passengers. After the fire room was abandoned the water soon smothered the fires and about 1.30 the engines stopped and a towering wave struck her breaking her almost in two and the smoke stack went down through the bottom of the hull.

The first lurch was followed by another equally as inspiring and the hull broke in two, the deck house floating off on the heavy sea. It was at this juncture that Loftus Gudmanson and Charles Grayeyes met their death, going down with the machinery. Then followed a thrilling period, the crew and passengers endeavoring to reach the life boats. Mrs. Joe Sin-

## INDIANS IN

### BAD MOOD

Resent Attempt of Fisheries Officers  
to Enforce the Law

(Bulletin Special)

Vancouver, Aug. 30.—Sensational news comes from the north. It is reported that the Babine river Indians, whose haunts are near the headwaters of the Skeena river have revolted. The authorities on the Skeena are declared to be utterly unable to cope with the situation and it is stated that unless a force of military is rushed north with all possible despatch there is grave danger that murder may be done. The trouble all arose over the attempt of the fisheries officers to destroy barricades which the Babine Indians had erected across the Babine and other streams leading to the spawning grounds of the sockeye salmon. It is declared that a force of not less than a hundred militiamen is absolutely essential to the preservation of peace and that no smaller body of men will be able to effect the arrest of the Indians who have become terribly excited. The failure of the police authorities to capture an Indian who recently murdered two men in the vicinity of Hazelton is ascribed as the reason for the spirit now shown by the Swishes in their stand against the authorities.

clair had two small children in her arms and the mate Alex Joyce at once went to her assistance. Mrs. Sinclair threw one of the children into the boat, the mate caught hold of the woman and she flung the other child into the boat also. At this time the yawl boat was afloat on the deck. When the deck arose out of the sea Sinclair who is an Indian, hurried across although the waves were mountain high. He procured the axe from the life boat and chopped loose the falls which held the yawl. By this time one of the wheelmen also gained the boat and the waves carried it clear of the deck. Then followed a mad rush for the life boat. All who were not in the yawl boat with the exception of the captain and the two stewardesses attempted to get into the life boat. For some reason the captain would not go aft and the two ladies followed his example. Then another wave struck the deck and the life boat went off with ten people in her. When these looked around after the wave had spent itself they saw that the deck house was in pieces. One fisherman, Aronson, of Poplar Point had evidently fallen

## VICTIMS SWARM ABOUT DOORS

Narrow Escape For Son of President  
of Collapsed Company.

(Bulletin Special)

Philadelphia, Aug. 29.—A crowd of angry depositors, many women, congregated today about the collapsed Real Estate Trust Company's doors. The lines blocked the cars so that the police were necessary. Depositors gave vent to their emotions with tears and threatened the officers and directors of the concern.

The assets of the company are \$10,954,748.23. The amount of trust funds invested by the company is \$26,167,682. This amount does not include trusts under mortgage or securities amounting to \$60,483,400, held by the company as depository and trustee for issues of collateral trust bonds. At noon F. Warden Hipple, son of the president and an employee of the company was recognized by the depositors and a rush was made for him. Hipple covered from the attack and two detectives carried him to an automobile on their shoulders through the crowd when he was taken to the station for protection.

through the hole made by the smoke stack in its plunge to the bottom. Charles Grayeyes was never seen after the run for the life boat. When last seen Captain Hawes and the two stewardesses were seen standing forward on the deck house. Captain Hawes was an old sea captain and stuck to his ship to the last. The steamer went to pieces about 4.30 in the morning just as the first faint glimmer of dawn was stealing over the angry waves. The steamer sank about twelve miles almost due west of Swampy Island. After about three hours' pulling in the heavy sea the two boats, one containing ten persons and the other six, landed on Swampy Island.

They started a fire and spent Sunday there. The ice chest of the Princess floated ashore and fortune hunters and a few rickles. There with the fish that washed ashore from the wreck constituted the bill of fare. One body was found Monday morning as the sea calmed some of the survivors rowed over to Cox's light house. Some of the crew went back to Swampy Island and looking for the bodies of the dead. They were only able to find one, that of Joe Aronson, a shore hand from Poplar Point. He was found clinging to some wreckage which he evidently caught after the boat fell. His body was also brought over to Cox's light house. No body was found till about 5 o'clock Monday evening when the City of Selkirk came along on her north bound trip. A boat went out bearing the news but when the captain saw the crowd on the reef he knew what had happened. Capt. Townshend of the City of Selkirk, lowered a boat and the survivors were brought on board. The crew of the Princess consisted of Captain John Hawes, Alex. Joyce, mate; Arthur Hooley, chief engineer; Wm. Roth and George Freeman, foremen; John Bird and Joe Star, wheelmen; Wm. Hope and Charles Grayeyes, deck hands; Flora Macdonald and Yola Johnson, stewardesses; Joe Aronson, Loftus Gudmanson, Jacob Gudmanson, John Johanson, Pete Gudmanson, Joe Sinclair, Mrs. Sinclair and two children. Captain John Hawes was formerly in the Hudson Bay trade between Liverpool and Fort Churchill. He made his first trip on Lake Winnipeg seven years ago on the Princess and has been sailing on the lake ever since. The steam which engulfed the steamer Princess and which was the cause of the terrible disaster, is said to have been one of the worst ever experienced on the lake.

Winnipeg, Aug. 29.—The wreck of the Princess has created great anxiety over the Wolverine under Captain Vance, which is one two days overdue. She is the property of the Commercial Fish Co., and is one of the largest boats on the lake and runs as far as Warren's landing for fish cargoes.

## THE -GRILL CAFE-

We beg to announce to the general public that we have secured the services of one of the most up-to-date and competent chefs procurable. Mr. Jack Wolfe, who was for three years chef of the staff for Louis Davenport of Spokane. Call and try our  
35c. DINNERS

## POLICE RAIDED "BAD LANDS"

Society Women and Club Men Find  
Lodging In the Cells

(Bulletin Special)

Chicago, Aug. 30.—In what was the most spectacular raid ever seen in Chicago, 70 policemen and detectives stormed the "Bad Lands" of the downtown hotel district and carried captive more than one hundred inmates of fifteen hotels. A more sensational action is yet to happen. In addition to the arrest of the proprietors who include at least two south side society women, the owners of property are to be summoned. Such persons as McCormicks and Ira B. Cook, the millionaire church leader of Evanston, who owns the land upon which the hotel Central is located, will be subpoenaed. Women gaily dressed with sparkling jewels, prominent in Chicago society together with their escorts, some of them club men, were huddled into dirty cells, weeping and half fainting. Some shouted, others cursed, the police and fought every inch of the way. One woman half-dressed and in a dead faint was lifted by the police from the floor of a patrol wagon where she had been crushed under the feet of the other passengers.

## SURVEYORS

### MISSING

Two Men Who Went Out to Build  
Mounds Have Not Reported.  
Believed to Be Drowned.

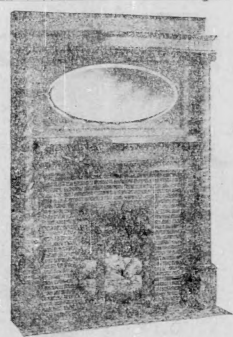

Two men in the employ of C. E. Driscoll, surveyor, one of them an Englishman named Chas. Duckworth, and the other a Canadian, name unknown, have undoubtedly lost their lives in the upper waters of the Saskatchewan.

Over two months ago the two men took a contract from Mr. Driscoll to place the survey mounds in Township 59, range 6, which is 75 miles west of the city. They employed a couple of farmers to help them place the mounds, who came in a month or so after their departure and collected orders for small amounts due them for wages. Since then nothing has been heard of Duckworth or his partner, and it is believed that they were drowned while trying to cross the river. The Mounted Police have been notified and a search will be made.

## MANITOBA DIAMONDS

Winnipeg, Aug. 27.—Prof. Reuben Andre, well-known in this city, and especially in Fortage is Prairie, arrived here last evening with a double handful of rough diamonds, which he claims to have discovered within the confines of the province. Local jewellers affirm they are diamonds of the first quality. Andre expressed them to a New York expert and has already stated claims, and is of the opinion that he will be rich beyond the dreams of Croesus within the year. The arrival of Andre with these valuable gems came as a surprise to Winnipeggers, who are accustomed to stories of wealth of what fields, diamonds coming as a surprise to them, although they are known to exist around Rainy Lake.

BAD STORM AT FORT WILLIAM  
(Bulletin Special)  
Fort William, Aug. 29.—A heavy hill and wind storm broke windows and destroyed buildings in the course of a few hours.

## COMMISSION SAT YESTERDAY

Heard Representatives of Railways  
and Winnipeg Grain Exchange

(Bulletin Special)

Winnipeg, Aug. 29.—The grain commission opened its sessions in Winnipeg today, and took evidence on questions of terminal charges, leakages in transit and grain inspection. P. W. Peters of the C.P.R. and G. H. Shaw of the C.N.R. claimed the railways could not be responsible for cars at blind sidings until they were picked up. The grain exchange presented two petitions which had been sent to parliament too late for notice, one asking that the warehouse commissioner have power to see that railway companies carry insurance on grain in their terminal elevators, proportionate to the amount for which they collect insurance charge, and the other asking that all public warehouses be compelled to insure their grain stocks.

## DRAGGED HIM TO DEATH

Manitoba Farmer Found Dead Under  
His Wrecked Wagon

(Bulletin Special)

Maripolis, Man., Aug. 30.—Last night a man named R. Gaux, living five miles south of Cypress river, met death in a peculiar manner. After having imbibed somewhat freely Gaux left town with a team and wagon. When about two miles on the way home the team left the road and struck a solid stump, causing the front part of the wagon to leave the hind part. Gaux in some way got tangled up in the lines with the result that he was found dead this morning with the front part of the wagon partly turned over on him.

## RAILROADERS BLOWN UP

Two Grand Trunk Pacific Workmen  
Killed by Premature Explosion

(Bulletin Special)

Fort William, Aug. 30.—S. Peterson a foreman for Foley Bros. on the G.T.P., and an Italian unknown were instantly killed yesterday at Kaminitiqui by a premature explosion. The men were blasting in a rock cut. The fuse of the torpedo had been lighted and before the men could be warned the explosion occurred. Peterson was blown to pieces. Three other laborers were injured but not fatally.

HOLDERS CASHING IN  
(Bulletin Special)  
New York, Aug. 30.—There was great liquidation on the stock market today. Hundreds of small traders disposed of their holdings on account of the Philadelphia failure in belief that other companies are as bad.

TERRORISTS BUSY  
St. Petersburg, Aug. 30.—The past has been a very busy week for the terrorists. The record shows 101 officers murdered and 92 injured and 291 private persons victimized.

Traveller Who Returned From  
the West Yesterday Tells  
What the Surveyors are  
Doing in the Mountain  
Passes.

Mr. J. D. C. Melville, arrived in the city yesterday after three months spent in the Yellowhead and Athabasca river country, where he went for a trip of exploration, discovery and adventure. Mr. Melville is an Englishman, one of that type of men who are to be found in every big game country in the world, just for the fun of the thing, and as he is a very careful observer his report of the country is exceedingly interesting.

Leaving here in June, Mr. Melville went west via Lac Ste. Anne and what is known as the "summer trail" to the headwaters of the Miette, at the summit of the Yellowhead Pass, had a look down into the Fraser valley, and then came back down the Miette to the Athabasca, down the Athabasca to the Landing, and Edmonton, covering in all something like a thousand miles.

Mr. Melville has no hesitation in stating that the Yellowhead is the pass which the Grand Trunk Pacific will take. With the exception of one party working in the Miette, all the surveyors as far as he could learn are in the Yellowhead pass. In fact there is a continuous chain of surveyors from Prairie creek on this side of the divide to Kaian Island on the Pacific coast. Between Prairie Creek, which is Jack's ranch where the supplies are

CORRESPONDENCE INVITED

Edmonton Branch : : H. A. GRAY, Agent.

# Edmonton the Hub of Commerce

(Katherine Hughes in Toronto World)

Is there anything new, I wonder, to tell of Edmonton, the northern Mecca; Edmonton, the much-discussed; the provincial capital (not Calgary's vote, though); the new railway centre that checks off on its fingers three transcontinental lines as its feeders, and tells you brightly that it does not know how many more to expect?

All roads in the west lead to Edmonton. And along all of them capitalists are hurrying to what promises to be an Eldorado of grain and live stock. One man met by the Press Club on the way was going to see how best to invest \$2,000,000. Wheat lands seemed to draw him most, for he was an Iowa man and knew something of the money there is in wheat.

Arthur Leigh of London, who, with Cecil Ward, was in Edmonton at the time, representing an English company, with \$1,500,000 invested there, says the district surpasses even the anticipation of the investors. He expects thousands of a good class of farmers from Great Britain—"if the Americans do not get in before us."

It is not to be wondered at that Edmonton has awakened to find herself famous; that having increased her population to five times what it was four years ago, and with people still streaming in, the city is too busy to count her inhabitants and decide whether she has really 12,000 or 15,000. The Canadian Pacific and the Canadian Northern run seven trains daily into this bustling city; ten years ago it was only a trading post. The hotels simply cannot accommodate people, so these accommodate themselves in tents, while the hotels, numbering over a dozen, do the best they can with the crowds.

Edmonton is prettily situated on a high bank of the Saskatchewan up where the land is broken into picturesque diversity; where woods and hills and valleys are instead of prairie. It has drawn so many people of an ambitious class and lured so much capital to it that with its acknowledged potentialities one is not surprised to find its streets built in an imposing style—as of a city that expects to be great in a decade or so. Edmonton has this undeniable advantage over many other towns; the growth is not only modern, but architecturally fine and unhampered by lack of means.

The rush here is perhaps more pronounced than at any other point west of Winnipeg. American capital vies with English in making investments, and Canadians with small revenues are on the ground at work to make capital out of the capitalists. Later they will themselves invest in never places.

Not less upon its future as a railway centre than on the wealth of its coalbeds and natural gas, its wooded valleys and possibilities of native raw material is Edmonton building to become a big industrial centre by and by. The coal, a fine lignite, sells for \$1.25 to \$1.75 a ton in the bunkers now.

Just as in Lethbridge, Medicine Hat and other points the need is felt here to utilize, as one business man said, "Our cattle and hog products at home instead of shipping them east to Chicago and St. Paul, then paying duty and freight back on them again." Other manufacturers are coming—though this should be a golden time for packing-houses to rise in Canada. As Sheriff Robertson, an old resident, said to one of our party: "We now ship flour or wheat east and they ship us biscuits made from it. That won't last."

Someday will build a biscuit factory soon, even if it were only to rival Calgary's. Already Edmonton is the distributing centre to a score of hamlets, villages and towns. Strathcona (over 3,000) across the river, is a lively town with big mills, packing houses and brewery. Lacombe, with its spur line of railroad opening up a new country, is growing wonderfully. Vermilion has not only a fine agricultural district to develop, but is a divisional point on the C.N.R., a fact which ensures to it a certain and considerable amount of trade.

Ten years ago Edmonton was a village. In 1901 it had 2,925 people. In 1905 the population had grown to 10,500. This year it is 13,000 or over. Assessments have leaped in four years from \$1,300,000 to \$6,600,000. Thirty miles of streets have been graded, grandiose walks laid, sewers constructed, electric lighting introduced and still the civic authorities, led by their energetic mayor, Charles May, are planning further improvements.

The churches, schools, banks and wholesale houses are—well, just like the good churches, schools and banks in the east. Houses cannot be built quickly enough to accommodate the year's inflow of settlers, so people live in tents for weeks. But some of the private residences are quite handsome, notably that occupied by Governor Rulien and once the home of the Hon. Frank Oliver, whose property it

# WOMEN DRIVE THE BINDERS

Contrast Between the Old and New Times in the West

Horse Hills, August 28.—The click of the self-binder is now heard again throughout the land from early morn till dewy eve. Alberta with her fleecy clouds and sunny skies has again produced her waving fields of golden grain with heavy yields and fine samples. The season has been an ideal one, plenty of rain and sunshine to mature and ripen the grain. There has been no hail or frost to damage crops in this locality. Wheat will average about 25 bushels per acre, oats from 40 to 100 per acre according to cultivation. Barley is an excellent crop and will yield from 30 to 50 bushels per acre. Cut worms did some damage in places and again they did a great amount of good in some other parts by eating all the weeds and leaving the grain alone. In cases of this kind heavy yields are the rule. It is hoped we can keep this kind of cut worm. Weed inspectors could then be dismissed and weeds got rid of. If the present weather continues harvesting will be well advanced the present week, with the exception of crops sown for green feed. Harvest hands are scarce although good wages are offered. Women are running binders and the men doing the stooking and heavy work. Everybody is doing their level best to secure the golden grain in good shape.

The foot of the iron horse now reverberates around Horse Hill. Away back in the last century little noise was heard except the melancholy creak of the old Red River cart (so pleasant to the ear of the pioneer) as it wound its way over hill, plain and muskeg, calling out only as a tired River cart could for greas. There was a happy time around Hudson Bay posts and early settlements when the long cart train showed in sight. Dogs barked, Indians yelled, the tom-tom beat loud and louder during the long hours of the night, and mosquitoes from a thousand muskies hummed through the air in millions to have a grand booze on some missionaries who happened to fill up the ranks of that hardy band of men who made this country possible for the pale face to live in.

The whirr of the saw and the sound of the hammer is now heard at all hours in the settlement.

Mr. Walker and family from California arrived lately. Mr. Walker has bought the last vacant quarter section and has built a fine residence.

Messrs. Belfrage and Fullerton Scotland, have bought the quarter section adjoining Mr. Spaulding. They have already erected a barn, and will soon commence to build a dwelling house.

Frank McEay is also building a double decker.

H. Rosewell has built a fine barn and made other improvements.

H. Virni will soon have his dwelling house brick veneered. Mr. Vernie will then have the best equipped farm buildings in Horse Hills.

Mr. Simpson has sold out his half section for \$12,000 to two gentlemen from Illinois, who are delighted with the looks of the country.

H. C. McMillan of Rock Rapids, Iowa, has several percheron stallions which his agents are trying to syndicate here, but farmers do not invest as readily now as they did some years ago.

still is.

The country round about is so diversified that while wheat—40 bushels of hard wheat to an acre often—is its boast, there are regions particularly adapted to mixed farming, to sheep and cattle raising. Free homestead lands can be had now only at a distance of 50 or 60 miles from Edmonton. Within that radius land sells at from \$6 to \$25 an acre. But those homestead lands will sometime be on the line of new railways, with new towns springing up as Stettler did in one year.

One smile in remembering that this marvellous Edmonton, that Calgary of gigantic aspirations, and Lethbridge of sunny days and people—these are but the newest outposts of empire in this country of the twentieth century. Yet did not someone sometime say in hisetral ignorance that this whole Canada was a small thing to lose—merely "a few arpents of snow?"

Poor monarch! But there was no Woman's Press Club in the Canada of his days to enlighten him—as there probably would not be in Canada yet, if it were not for the recognition given two years ago to women journalists from Vancouver to Halifax by the good genius of newspaperdom in Canada, that big-hearted man, George Ham, in whose wide sympathies there is no distinction of east or west.

## ANOTHER "GET RICH QUICK" SCHEME

The following regarding a new company being formed in the west, is published in the interests of the public. "Western Canneries, Limited," is the name of an association being formed in Winnipeg for the purpose of conducting canning establishments in many towns in western Canada. At first sight the company looked like a bona fide concern formed for the purpose of undertaking the production of meat products on a large scale, and hence worthy of commendation both as a western manufacturing enterprise and as one which would increase demand for farm products and benefit the producer accordingly. The more that is known of "Western Canneries, Limited," however, the less favorable the view, and from the present appearance the project looks very much like the dream of an over-heated imagination. "Western Canneries, Limited," recently published a prospectus which offered the following paragraphs for the consideration of possible investors:

"The demand for the company's shares of this issue has been very large, especially in the cities and towns, but it has been decided that the issue of the capital of the company shall be reserved for purely western allotment among the producing community of western Canada."

"After the share holders of the company have received dividends at the rate of fifty per cent per annum from the net profits of the company's business operations, then ten per cent of the remaining profits shall be paid to the general manager in addition as bonus to his ordinary salary."

"Profits.—The average cost of canning and packing, including the cost of cans, cases, labels, contents and labor, for 2-lb. cans, four dozen cans to the full case, at present prices is \$4.34 and the market price (at \$2.25 per dozen upwards) being \$5 to \$15.60 per case of four dozen cans. For the local market the goods are mostly produced in quarter and half cases of two and one dozen cans respectively. The capacity of the company to be first operated by the company is 2,500 cases per day, and the fact that the plant will be worked regularly throughout the year, that the equipment of the trade is of the best kind, that the cans of all grades in which the goods are packed by the company are greatly superior in finish to anything yet attempted in Canada, shows that the company is prepared to take a foremost position in this important branch of industrial operations."

"As the stock of most packing establishments elsewhere is worked down to about 30 per cent of the cash invested in order to avoid the appearance of excessive dividends being paid to shareholders, it is evident that to occupy our organization on the same basis this one is, that an annual dividend of two hundred (200) per cent per annum is a very moderate anticipation."

"In prospectuses of this kind it is no doubt usual and fashionable to estimate probable dividends at from 8 per cent to 15 per cent per annum, but in this instance the foundation members have our entire confidence, and taking the present low price of beef into consideration, and the fact that the shares of the company are not watered down to a low percentage basis, also that the capacity of each cannery is 2,500 cases, equalling about \$25,000 daily on a profit fully explained herein, an estimated profit of 200 per cent is very modest indeed, and in the present instance more likely to be exceeded if the

canneries find packing material available adequate to the company's requirements."

"That there are good profits in a properly conducted cannery is beyond question; that there is an immense field and rich rewards for the industry in western Canada is quite a certain, but that it will return a dividend of 200 per cent, we consider extremely improbable, even against the calculations of "Western Canneries Limited."

We venture to assume that there are in other branches of business in this Great West men of quite as great financial capability as the gentlemen behind "Western Canneries, Limited," men who are governed by quite as strong desire to secure dividends and who have no greater repugnance to drawing those dividends from the operation of canning factories. These men are engaged in occupations which are not now earning, and never will earn, the dividends forecasted by "Western Canneries Limited." If these forecasts were in any reasonable degree related to the probable we should expect an exodus of capitalists from all other lines of trade and a general raid into the canning business. Stores would be deserted and factories closed down that the proprietors might amass a fortune in this new-found bonanza. No such revolution in the commercial life of the west has been observed up to the hour of going to press, notwithstanding the enlightening prospectus issued by "Western Canneries Limited." Men who have money to invest, who are anxious that it should be invested to the best advantage and who have both the experience and judgment to discern such investment, such men are still managing banks, conducting mercantile establishments and operating factories which yield no such fabulous returns as are prophesied for the investors in "Western Canneries Limited." Yet these men must have encountered this prospectus phenomenon. The West needs canneries, and offers big rewards for those who will supply the need. But neither this nor any other legitimate commercial project is likely to be supplied under competitive conditions by concerns promising dividends of 200 per cent.

## THE UNSEATING OF MR. FIELDING

Hon. W. S. Fielding has been unseated as the result of an election trial and there is joy in the camp of the Progressives—joy which is known as the "Fielding" joy. The fact that his mishap was the doing of others nor that his re-election is a foregone conclusion. The judges in giving the decision said that while Mr. Fielding had the law against him and he had to be unseated because of the acts of others: "Fielding was absolutely innocent of any violation of the law, and in fact had done what he could to see that no breach of the law had been committed during the election. The Minister of Finance is the latest victim of the election law which holds a candidate answerable with his political life for acts which may have been done by others without his knowledge or consent and in opposition to his declared wishes."

With its usual obtuseness or its usual unfairness the opposition press manages generally to omit the judges' explanatory remark and thus by accident or design give the impression that the misfortune of the Minister of Finance indicates personal culpability. This reason is not far to seek. The Opposition in Nova Scotia and out of it felt very bitterly the overwhelming defeat which overtook them in that province in 1904 and as a drowning man catches at a straw he does not mind if it is a snake and will regard it as little as they have the numerous precedents which have been a salient feature of Conservative policy in contingencies much nearer Edmonton than the riding of Queens and Shelburne.

While the Opposition press are thus seeking party capital by truthful insinuation the leading Conservatives of Mr. Fielding's constituency are pledging him their support and influence and the appearances are that he will be returned by acclamation.

## The Manchester House

(ESTABLISHED 1886)

## New Fall Goods Now Arriving

By almost every train we are receiving shipments of the New Fall Goods and our store and warehouses are crowded. We have bought a much larger stock than ever before and buying for Cash only, we feel that we are in a better position than ever to please our customers, both as to variety of goods and right prices. We would solicit your inspection of the following lines especially.

## LADIES' MANTLES

We have just received a shipment of ladies and children's cloth coats and mantles for fall. As we import these goods ourselves we can guarantee the styles and values.

## NEW DRESS GOODS

We have just passed into stock our new fall dress goods, by far the largest and nicest range we have ever shown. We shall be pleased to have you inspect them.

## LADIES' DRESS SKIRTS

Our ready to wear department is now well stocked with the new lines in ladies and children's skirts, underwear, etc.

## FALL UNDERWEAR

Both ladies and children's in a good range of prices and qualities.

## IN OUR SHOE DEPARTMENT

## LADIES' SHOES

We have just made arrangements to carry the famous Dorothy Dodd shoe for ladies, and have received our complete stock for fall. This includes all the new styles and leathers in this well known shoe.

## FOR MEN

We show the Packard shoe, made in Brockton, Mass., made by one of the newest lasts and most fashionable toes, all leathers \$5.00 per pair.

## CHILDREN'S SHOES

Our new fall lines includes many styles never before shown in Edmonton. As we carry a complete range of sizes we can fit and suit the most particular.

## For Family Colds

A reliable cough and cold cure should be always in the house ready for use at the moment the first symptoms appear. It is always easier, cheaper and better to check a cold in the very beginning.

Shiloh's Consumption Cure, the Lung Tonic, has been tested for thirty-three years, and tens of thousands of homes in Canada and the United States to-day are never without it.

A dealer writes: "Shiloh's Consumption Cure is without doubt the best remedy for Cough and Cold on the market. Once used, my customers will buy no other.—L. Elder, Nanawauyau, Ont." If it were anything but the best would this be so? Try it in your own family. If it does not cure, you get back all it cost you. We take all the chances. Neither you nor your dealer can lose. Isn't that fair? 25c. is the price. All dealers in medicine sell.

SHILOH

When you want BLACK silk, you don't say "a spool of silk." When you want Windsor Table Salt, say so—"WINDSOR."

## --FURS--

Now is the time to have your furs repaired and altered. The Edmonton Fur store is now prepared to do all kinds of work in that line in a first class manner. All work is guaranteed satisfactory. Don't wait for the rush.

## SPORTING NEWS OF THE DAY

## Calgarians Here

A New Manager Arrives With the Cowpuncher Troupe. Game Called at 5.30 p.m.

Calgary ball players have a new manager; or rather, he is not so awfully new, but he is new to the management of the Calgary team, although he has had considerable baseball experience in this country already. He was at one time manager of the Wetaskiwin team. His name is Benjamin, "Beeny" they call him for short; derived from the qualifying adjective attributable to the Calgary team "has been" en! That's not his maiden name, of course; but then he lived so long in Wetaskiwin that the boys have all forgotten what the big "C" on the front end of his name is for. Up to the hour of going to press it might stand for "Cinch" or "Come-on."

However, Mr. C. Benjamin of Calgary, Alberta, one of the largest towns (in point of size) in the province, has arrived, and with him is a troupe of baseball performers.

There are no new "eccentrics" with the "aggregation of freaks." Mr. Benjamin is carrying much the same line of attractions as his predecessor, Mr. Vidler. There is Johnny Donovan, the man with the buzz saw voice; Mr. Crist, the alleged pitcher; Rochon, the smiling brunette from the Pacific Coast; Mr. Ford, who slumbered seven years in Victoria, B.C.; Watty Watson, the man with the strange hold; Mr. McGinnis of Paris, France; Mr. Moyné, with the tender complexion, and Mr. Westerberg, who misses the ball.

Mr. Benjamin's aggregation will perform at the Second street hall grounds this afternoon at 5.30 o'clock. It may not be the last time that Calgary will ever come to town, but arrangements have been completed to make their visit on this occasion as interesting and exciting as possible under the circumstances. In fact it is fairly certain that there will not be a dull moment between 5.30 and the dim hours of twilight.

And will Calgary win? Oh, I guess, maybe! Maybe not.

## Merciless Maroons

Pounded Fargo for 14 Runs in One Innings—Score 21 to 1

(Bulletin Special)  
Winnipeg, Aug. 29.—One of the funniest games that has been pulled off in these parts for many moons, the Maroons scored 21 runs to Fargo's 1. Fargo had been playing in hard luck all through the game but in the eighth they went up in the air altogether and the Maroons piled up 14 runs. Two pitchers were batted out of the box.

The Northern league scores were:  
At Winnipeg: Winnipeg 21, Fargo 1.

At Duluth: Duluth 5, Calumet 1; second game: Duluth 9, Calumet 1. No game at Houghton; rain.

NATIONAL LEAGUE  
Chicago 3, Cincinnati 1; at Brooklyn, Boston 3, Brooklyn 4; at St. Louis, St. Louis 0, Pittsburgh 2.

AMERICAN LEAGUE  
At Boston, Boston 6, Cleveland 2; at Philadelphia, Chicago 1, Philadelphia 5; at New York, St. Louis 4, New York 5.

EASTERN LEAGUE  
At Newark, Providence 2, Newark 1; at Jersey City, Baltimore 3, Jersey City 6; at Toronto, first game, Buffalo 3, Toronto 2; second game, Buffalo 3, Toronto 2; at Montreal, first game, Rochester 12, Montreal 2; second game, Rochester 1, Montreal 0.

BAEPALL MANAGER LEAD  
Samuel J. Graham, manager of the Regina baseball team, died in that city recently. He was manager of that branch of Bright & Johnston's wholesale fruit establishment. He formerly travelled in the west for the same firm. He was very prominent in all lines of athletics. A wife and two children survive him.

GRAIN PRICES  
(Special to the Bulletin)  
Winnipeg, Aug. 30.—No. 1 northern 75 3-4c; No. 2, 72 3-4c; No. 3, 68 1-2c; No. 2 white oats, 31c; No. 3 barley, 28c; No. 1 flax \$1.03.

## Gans is Favorite

Baltimore Negro Stands 10 to 9 Over Dane in Financial End of the Game

(Bulletin Special)  
Goldfield, Nev., Aug. 28.—So far the betting on the Gans-Nelson battle, which is to take place here on Monday evening, has been light, but there is something in the air that foretells a heavy exchange of money on the result. Naturally those who are willing to wager on the outcome want to have an opportunity of sizing up the men, and the crowds that go daily to the working quarters of both men show that the sizing up is in progress. There is plenty of money in the camp to be bet, and considerable is coming from the outside, but wagers are few and better odds are awaited by the backers of both men. One bet of \$3,500 to \$4,000 has been made, with Nelson on the short end. Small bets are frequent with the negro the favorite at 10 to 8 and 9.

Work in the arena is progressing nicely, but the contractors lost a few hours the other day when a miniature cloudburst happened along.

Reports that Gans was under the weather caused the Miners' union, the members of which generally favor the black boy's chances, to ask that the union's physician, Dr. J. H. O'Connor, be permitted to examine him. Gans and his manager readily consented. Joe submitted to a most searching examination. Later Dr. O'Connor gave out a signed statement in which he declared that Gans is in perfect condition. His statement said of the fighter:

"He has wonderful recuperative ability and a physical examination accounts for the fact. His circulation condition could not have been better when he was sixteen, for it is as near perfect as it seems possible for anyone to be."

When Joe stripped, even his friends were surprised at his showing. He has not an ounce of flesh to spare, but is not drawn or overworked. He is below weight and has cut down his work.

From 3 to 4 o'clock this afternoon it was "ladies" hour at Nelson's training quarters. Nearly 200 women were present and witnessed "Battler" at his work. Nelson is nearly at weight now, weighing less than 134 pounds. Gans, having made his weight is taking things very easy.

Everybody in Goldfield is filled with satisfaction over the choice of George Siler for referee. Mr. Siler has wired that he will leave for Nevada Friday or Saturday.

INSURANCE OF WHEAT  
(Special to the Bulletin)

Winnipeg, Aug. 29.—Before the grain commission today John Fleming testified that insurance of wheat in elevators costs more since the elevator companies did that business than it did when the shippers did the insuring themselves. Fleming, however, favored private insurance against the government control of elevators. David Horn, chief grain inspector, stated that the average cost of wheat was barely above the standard or minimum sample, instead of being half way between grades.

Despite the fact that over sixteen thousand men have already been distributed there is still a big demand for harvesters in many parts of the province.

THE EUMPER CROP  
(Special to the Bulletin)

Winnipeg, Aug. 30.—The latest crop reports issued by the C. F. R. indicate that 75 per cent. of the crop has been cut in most localities, while elsewhere it has been entirely finished, and threshing is progressing favorably. Little damage has been done to crops through hail or other causes, this proving a record breaking year. The yield in Northwest a Manitoba seems particularly good averaging from 20 to 22 bushels an acre while in the southern part of the province the grain is turning out slightly better than in previous years. Rain is reported in some parts of the province but not sufficient to do damage to any extent. Most of the wheat already threshed graded No. 1 northern, and experts say that fully 75 per cent. of the remaining crop will grade the same.

PASS NOT CHOSEN  
(Special to the Bulletin)

Winnipeg, Aug. 30.—F. W. Morse arrived in Winnipeg today from St. Paul. As to the particular pass the Grand Trunk Pacific will use in the Rockies, said Morse, "nothing has been decided. We are so busy bridging the west necks between Winnipeg and Edmonton that we cannot devote much time now to the matter of terminals in this city."

## Progress of the Transcontinental

Contractors Working East of Saskatoon will get through in time

Saskatoon, Aug. 27.—Progress on the Grand Trunk Pacific work, east of Saskatoon, on the Canadian-White Co.'s contract, has been better during the last month.

Sub-contractor Lamb, who has twenty miles, has a largely increased force of teams and wheel scrapers at work on this division, and is in good shape to complete his grading in time. Farril & Turnbull, who also have a sub-contract of about the same length, are progressing favorably, and Armstrong and Lake with some thirty-four miles eastward from the crossing of the South Saskatchewan, although short of teams, are doing good work. They anticipate employing about twenty or thirty more teams shortly and with the increased force will be enabled to do their portion on time.

Thomas Smith has the contract for building the culverts and is well in advance of the grading. There is no delay from this source.

West of Saskatoon the Canadian-White Co. themselves are making rapid progress with their steam shovel excavation and trestle filling.

## HISTORIC EARTHQUAKES

The recent destruction of life and property in the state of Chile suggests to some of the historic disasters of a similar kind. Here is a list:

Year	Place	Victims
345 B.C.	Duras, Greece, buried	
and 12 cities destroyed in		
Campagna	.....	Thousands
157—Asa and Maceonia	.....	Thousands
557—Constantinople	damaged	
.....	.....	Thousands
742—Syria, Palestine and Asia		
50 towns destroyed	.....	Thousands
1158—Syria	.....	20,000
1286—Cilicia	.....	60,000
1456—Naples	.....	40,000
1511—Lisbon	.....	30,000
1626—Kingdom of Naples, 30		
villages destroyed	.....	70,000
1693—Sicily, 54 cities and 300		
villages damaged	.....	100,000
1793—Jeddah, Japan	.....	200,000
1731—Peking, China	.....	100,000
1754—Cairo	.....	40,000
1755—Lisbon	.....	50,000
1829—Spain, numerous villages		
destroyed	.....	40,000
1863—Manila, Philippine Islands		1,000
1888—Peru and Ecuador	.....	25,000
1887—Southern Europe	.....	2,000
1891—Japan	.....	4,000
1905—Calabria, Italy	.....	4,000
1906—San Francisco	.....	2,500

## THE CELEBRATION WAS BOISTEROUS

(Special to the Bulletin)  
Fort William, Aug. 30.—A festive wedding at the coal docks last night wound up in a fight and as a result Pete Stanuluki received such injuries that for a time his life was despaired of. He is, however, resting easy now and the doctor thinks he will be able to pull him through.

## RAISED A CHEQUE

(Special to the Bulletin)  
Medicine Hat, Aug. 30.—Stratton Officer, charged with raising the face value of a cheque from \$6 to \$9, has been arrested in Denver, Col., and, waiving extradition, was brought to Coats, Alta., today, and handed over to Inspector Parker of the R. N. W. M. P.

## REMINDERS OF THE VALENCIA WRECK

(Special to the Bulletin)  
Victoria, B.C., Aug. 30.—News by a steamer from Vancouver Island confirms reports regarding finding of a boat with eight skeletons in a cave. The cave, which is near the scene of the Valencia wreck, was found by an Indian who climbed over a rock at the entrance and swam in, finding among the wreckage an iron safe a portion of which was damaged with eight corpses, all decomposed beyond recognition.

## BRAKEMAN KILLED

(Special to the Bulletin)  
Winnipeg, Aug. 30.—A. A. Huggins, a C. P. R. brakeman, was fatally killed at Julius last night. He was standing on the ground beside a flat car when a collision occurred. A piece of machinery fell from the car, striking him on the head, crushing it. The only way brought to his city. He lies at Kenora.

Toronto, Aug. 29.—Toronto people have been paying \$6 a ton for hard coal but the dealers today hoisted the price to \$6.50.

## VALUABLE HORSE LOST.

(Special to The Bulletin.)  
Toronto, Aug. 28.—One of Lord Rothschild's shire mares, Guelde Rose, broke loose in the stables at the exhibition grounds, got into a corn crib and overate. She died today. The mare was worth 1,000 pounds.

## ONTARIO MAN DROWNED.

(Special to The Bulletin.)  
Rochester, Aug. 29.—Chas. Williams, aged 19, son of A. D. Williams, a prominent shoe manufacturer, was drowned in Lake Ontario off Sea Breeze today.

## BOILER FIRES OIL TANKS.

(Special to The Bulletin.)  
Beaumont, Texas, Aug. 29.—A boiler exploded in Keithward tract at Spindale tonight setting fire to oil storage tanks and derricks, 15 of which have already been burned. The fire is spreading. Some of the best wells in the fields are in this tract.

## FROST IN KANSAS.

(Special to The Bulletin.)  
Reading, Kan., Aug. 29.—A light frost this morning is reported by farmers. This breaks the record of ten years for early frost.

## NEW CABLE WORKING.

(Special to The Bulletin.)  
Copenhagen, Aug. 29.—Another link in the great telegraphic chain around the world has been completed by the Great Northern Telegraph Co. and its telegraphic cables was opened for public traffic yesterday.

## FREIGHT TRAINS COLLIDE.

(Special to The Bulletin.)  
Montreal, Aug. 29.—Two C. P. R. freight trains were in collision at Berthierville early this morning. The engineers and firemen of both trains leaped for their lives when the crash was imminent and escaped. James H. McNeil, of Berthierville, was badly injured.

## SASKATCHEWAN PROVINCIAL ARCHITECT.

(Special to The Bulletin.)  
Regina, Sask., Aug. 29.—Geo. E. Hutchinson, architect, of the firm of Hutchinson & Noble, of this city, has been appointed provincial architect.

## MOOSE JAW FORGER CAUGHT.

(Special to The Bulletin.)  
Winnipeg, Aug. 29.—Geo. Churchill wanted at Moose Jaw for forgery, was arrested in Winnipeg last night by Chief Elliott of the Provincial Police. The Mounted Police will take him back to Moose Jaw for trial today.

## CONSERVING WATER SUPPLY.

(Special to The Bulletin.)  
Winnipeg, Aug. 29.—The board of works has ordered the streets to be flushed with Red River water in order to conserve city water during the period of stringency.  
The Manitoba Exploration Company has struck a mineral spring in St. Boniface and has made a proposition to the city authorities to erect extensive mineral baths in Winnipeg.

## BOY KILLED BY LIGHTNING.

(Special to The Bulletin.)  
Melita Man., Aug. 29.—Roy Coates, five-year-old son of Wm. Coates, who lives four miles west from here, was struck and instantly killed by lightning last evening. The boy was leading a cow home from pasture and had about reached the barn when the bolt struck him.

## ONTARIO MILL BURNED.

(Special to The Bulletin.)  
London, Ont., Aug. 30.—The ash, door, and planing mill of Alderman Perry was totally destroyed by fire. The loss is twenty-five thousand.

## OLD FREIGHT SHED BURNED.

(Special to The Bulletin.)  
Toronto, Aug. 30.—The old Grand Trunk freight shed at the foot of Berkeley street was destroyed by fire today. It was used as a storage house for junk. The loss is \$12,000, covered by insurance.

## NEW DEPUTY FOR SASKATCHEWAN.

(Special to The Bulletin.)  
Toronto, Aug. 30.—Frank Ford, formerly secretary to the Ontario treasury but latterly in the firm of Osler, McCarthy & Co., has been appointed deputy attorney general of Saskatchewan.

## YORK HANDICAP RACE.

(Special to The Bulletin.)  
London, Aug. 29.—The Great Elbow

handicap was run at York today and was won by Golden Measure, starting at 7 to 4. Mintagon was second, 100 to 6, Buckminster third, 100 to 15. There were twelve starters.

## NEW JUDGE FOR QUEBEC.

(Special to The Bulletin.)  
Ottawa, Aug. 30.—It has been decided to appoint Hon. J. C. McCorkill, provincial treasurer of Quebec, and L. P. Demers, M. P., of St. John's and Berthierville to the Superior Court of the province of Quebec. The cabinet meeting which was called for today has been cancelled until tomorrow on account of the absence of the postmaster general. He will be unable to get to Quebec and the luncheon which he had arranged for the officers of the Dominion battleship has been postponed.

## ENDORSES SPELLING REFORM.

(Special to The Bulletin.)  
London, Aug. 30.—Dr. Napier, professor of English and Anglo-Saxon in the University of Oxford, gives his approval to President Roosevelt's action with regard to spelling reform. He thinks that with few exceptions the proposed changes are moderate and a step in the right direction.

## THE TWICKENHAM DAMAGED.

(Special to The Bulletin.)  
Victoria, B.C., Aug. 29.—The steamer Twickenham, which ran ashore on San Juan Island last Friday en route to Vancouver, reached Esquimalt today in tow of the tugboat Salvo and the tug Tacoma. The vessel was floated last evening. She had been lightened of a portion of her cargo.

## OIL BUSINESS AT THE LAKE FORTS.

(Special to The Bulletin.)  
Port William, Aug. 29.—For the purpose of looking over the ground preparatory to installing a branch of the Canadian Oil Co. at the head of the lakes, Robert Creighton, of the 1903, district agent for the company, spent two days in Port William and Port Arthur.

## MURDERED HIS FATHER.

(Special to The Bulletin.)  
Spokane, Aug. 30.—The body of James P. Sloan, a merchant of this city, was found behind a pile of rocks in an alley near his home today. Sidney Sloan, the 17 year old son of the murdered man was taken into custody by the police shortly after and confessed to the murder. He said he slew his father with an axe in the hopes of getting \$500 which he thought his father was carrying.

## Western Items.

Geo. Ferraby of Danis Creek, Alta., was killed by being thrown from his seat on the bucking pole. The lines penetrated his thigh severing two arteries.

Lethbridge, Herald.—In an instance of the wonderful growth of Alberta is told in figures given by Rev. T. C. Buchanan, superintendent of the Methodist missions. Twenty years ago the Methodist church had six stations in Alberta and part of Saskatchewan. In the next ten years the number had increased to 17. Now there are 173 stations in the entire province of Alberta. A striking story of Alberta's growth, is it not.

Regina Standard.—Dr. Charlton, provincial bacteriologist and pathologist has analyzed ten pounds of water taken from a well on the farm of M. Williscroft of Mooseomin. The water is found to contain one-fifth pure Epsom salts. The well will supply enough Epsom salts for the whole province and Mr. Williscroft has a find which may prove of great value in the near future.

Pioneer, Magrath.—It is very laughable to see the crazy opinions some people get of the Mormons. In Lethbridge the other day, while the Raymond band was waiting melody above the din of "pool sellers" and men that should know "better" someone ventured the assertion that it must be a Mormon band. "Impossible" said a dear old lady and her husband noted his head also. We could not resist the temptation to draw the lady's attention to the fact that they must be Mormons because they had "horns."

Saskatoon Phoenix.—At Frank, Alta., R. Keen, a Lethbridge, a young man, aged 19 years, miner, was killed by a horse which he had picketed and when untied it the horse took fright, and the rope got twisted around the young man's hand and he was dragged some 200 yards when his head came in contact with a large stone. He died within twenty minutes after the accident.

J. G. Day of Battleford lost eight cattle last week through suffocation in a car, due to the excessive heat.

Andrew Rowley, lost his eyesight in the Taber mine while tamping a shot. Lethbridge Herald.—Lethbridge ought to have a poultry fattening station. There is no better climate on the face of the earth for poultry than southern Alberta; right about Lethbridge, too. We ought to be able to raise enough poultry and eggs to supply the British Columbia markets at least. In Kansas millions of dollars are made each year out of a poultry. Why can't we hit the money making trail in the same line too?

**Wilson's FLY PADS**  
THE ONLY THING THAT KILLS THEM ALL  
AVOID POOR IMITATIONS.  
Sold by all Druggists and General Stores and by mail.  
TEN CENTS PER PACKET FROM

## DOES OR DO?

\$10.00 GIVEN AWAY.

For the three best criticisms of the first sentence of the slip which we put in every package of tea or coffee.

### FORM OF SLIP

#### TO OUR PATRONS

If the contents of this bag—be it Tea or Coffee—does not please you, do not condemn it as being poor. It is just that you did not get the flavor which you like. We carry several flavours of each price, and if you will kindly explain to our representative when he next calls what seems to be the matter, we shall do it a favor and will guarantee the next order to suit you.

We cannot hold your custom without giving entire satisfaction; naturally we wish to please you in every respect.

THE NEW YORK TEA & COFFEE CO.,  
171 QUEEN'S AVENUE.

Having had a great deal of adverse criticism on the first sentence of the above, we have decided to find out whether "do" or "does" is correct, and will give \$5.00 to the best and most correct criticism of the wording of that sentence, \$2.00 for the next, and \$1.00 for the third.

Competent judges shall decide on the winners.

Any one wishing to try for the above may do so by purchasing from us one half pound of any one of our 10 or 50c teas or coffees. Each purchase shall contain a slip numbered and initialed by the Manager, which slip must be sent with the criticism.

Contest closes on August 31st, and results shall be made known in the City Journals.

**The New York Tea & Coffee Co.**  
171 Queen's Avenue.

## Farmers' Page

### WINNIPEG MARKETS.

(The Commercial).

Produce—Vegetables—New Potatoes  
60 to 70c a bushel; carrots, 15 to 20c  
doz.; native beans 31-32 lb.; beets 15  
to 20c.  
Cheese—Ontario—14c to 14 1/2c;  
Manitoba, 13 to 14c.  
Butter—Creamery is scarcer with  
choice at 22c, bulk 21c; dairy, select  
17c, yellow boring 15c; pastry, 11c.  
Eggs—Fresh 18c.

Poultry—Fowl, 8 to 9c; chickens,  
14c; ducks, and geese 9 to 10c; tur-  
keys 14c to 15c. These prices are live  
weight.

Dressed Meats—Beef, 6c; mutton,  
fresh killed, 12c; veal, fresh killed, 7  
to 8c; dressed hogs, abattoir killed,  
10 1/2c; lamb, 15c.

Hides—Country hides, 81-2 to 91-2,  
sheepskins and shearlings 10 to 30c.  
Wool—Manitoba coarse, 12 to 13c  
lb.; fine or medium 13 to 15c.

### LIVE STOCK.

Cattle—Are a shade easier than a  
week ago in the butcher lines. Ex-  
ports are unchanged. We quote: Best  
butcher's cattle, 31c; lower grades,  
3c; good export cattle are quoted at  
31c; cows, 31c weighed off cars Win-  
nipeg, buyers here assuming freight  
charges.

Sheep—Choice mutton sheep are  
worth 6c and lower grades 5c; lambs,  
71-2c.

Hogs—Are 1c lower than a week  
ago. Farmers are busy now, and hogs  
are not moving very freely. Live hogs  
weighing from 150 to 250 pounds are  
bringing 7 1/2c, and 250 to 300 pound  
hogs, 61c off cars Winnipeg.

### GRAIN AND FEED.

Grain dealers report that there is a  
good feeling in the trade, and a good  
volume of business is being done.  
Prices are steady. Oats are inclined to  
be weak. Hay remains unchanged at  
last week's advance.

Millfeed—Bran, \$16.50 per ton in  
bulk, delivered to the trade; short,  
\$18.50.

Ground Feed—Oat chaff \$25 per  
ton, delivered to the trade; barley  
chaff, \$20 mixed barley and oats, \$24;  
oil cake, \$27 per ton.

Oats—No. 1 oats, 30c; No. 2 oats  
30 1/2c per bushel in carlots on track  
in Winnipeg.

Barley—No. 3, 36c bushel; No. 4,  
34c per bushel, carlots on track here.  
Flaxseed—\$1.03 per bushel for No.  
1.

Hay—Fresh baled in carlots on  
track, \$9 to \$10; loose hay, farmers' loads,  
\$10 to \$12; timothy, new \$12 to \$14.

### CROP CONDITIONS.

Spruce Grove, Aug. 25.—The condi-  
tion of crops generally is very good,  
fully up to the average and about ten  
days earlier than usual. Cutting is in  
full swing and has been for several  
days. It is impossible to give an esti-  
mate of the acreage as the land in this  
section is pretty well all under cultivation.

Red Deer, Aug. 25.—Wheat and bar-  
ley here are generally cut and oats cut  
in many places, but later kinds are  
not ready. The harvest generally is  
two weeks earlier than last year. The  
straw is shorter but the grain is well  
filled. Potatoes are a good crop and  
have had no check. Native hay is good  
and cultivated fair to good, in quan-  
tity and quality.

### FORESTRY CONVENTION

As already announced a Forestry  
convention will be held under the aus-  
pices of the British Columbia Lumber-  
men's Association and the Canadian  
Forestry Association in Vancouver, on  
the 25th, 26th, and 27th of September.

His Excellency Earl Grey, Govern-  
or-General of the Dominion has ac-  
cepted an invitation and will open the  
convention.

The program in outline is as follows:  
Tuesday, 25th September, 1906—Arrival  
and reception of visiting members  
of the Canadian Forestry Association.  
Inspection of lumber and shingle mills.  
8.30 p.m.—Public reception to His Ex-  
cellency the Governor-General.

Wednesday, 26th September, 1906—10  
a.m.—Opening of the convention; pre-  
liminary business; addresses, papers,  
etc.; 2 p.m.—Addresses, papers, etc.; 10  
p.m.—banquet.

Thursday, 27th September, 1906—10  
a.m.—Addresses, papers, etc.; 2 p.m.—  
Addresses, papers, etc.

Papers and addresses will be given  
by R. H. Alexander, Secretary of the  
British Columbia Lumber and Shingle  
Manufacturers' Association; P. W. Jones,  
President of the British Columbia Lum-  
bermen's Association; E. Stewart, President of the Cana-  
dian Forestry Association and Domini-  
on Superintendent of Forestry; Clif-  
ford Pinchot, chief of the Forest Ser-  
vice of the United States; Dr. J. J. Clark,  
Forester for the Province of Ontario;  
Roland D. Craig, Inspector of Domini-  
on Forest Reserves.

## Western News

High river has organized an agri-  
cultural society with the following of-  
ficials: President, R. A. Wallace; Vice-  
President, D. E. Riley; 2nd Vice-presi-  
dent, D. Thurnham; Secretary-treasurer,  
F. H. Marshall; Directors, A. H. Eckford,  
W. C. McDougall, E. E. Thompson,  
J. R. Anderson and G. Findlay.

Red Deer Advance—A lady correspon-  
dent writes: "I overheard a conversa-  
tion, the other day between several  
farmers. One said he had oats five feet  
high with 155 grains to the head. This  
he on Sandy Slope Farm, owned by Mr.  
Geo. Bailey, 18 miles north west of  
Evaria. Another, that Mr. E. N. French,  
13 miles west of Evaria, had rye 7 feet  
high, with good head."

A carefully prepared estimate put the  
crop to be handled over the Prince Al-  
bert branch, recently acquired by the  
C.N.R., will be nine million bushels.  
Last year the C.P.R. hauled six mil-  
lions.

Wetaskiwin Times—Diphtheria is no  
 respecter of persons on occasions. On  
Monday last, R. M. Angus was taken  
down with this disease and is now  
quarantined at his home with all the  
family except Willie. Mr. Angus is  
progressing nicely, but it is a severe  
handicap to be thus afflicted during this  
busy season.

Warman Leader—Here is a minister  
who appreciates the editor. At a re-  
cent editorial convention he offered the  
following toast: "To save an editor  
from starvation take his paper and pay  
for it promptly. To save him from  
bankruptcy, advertise in his paper lib-  
erally. To save him from despair,  
send him every item of news if you can  
get hold. To save him from profanity  
write your correspondence plainly on  
one side of the paper and send it in as  
early as possible. To save him from  
mistakes, bury him. Dead people are  
the only ones who never make mistakes."

Warman Leader—Once in a while  
something new in the line of fish  
stories crop up. Here is one we clip-  
ped from a Manitoba paper: While  
fishing in the Lehigh river near White  
Haven, Patrick Tulley a Lehigh valley  
conductor hooked a catfish which  
he could not land. After applying all  
the methods known to scientific angler-  
men he was about to give up in despair  
when another fisherman proffered as-  
sistance. He said there was only one  
thing to do—wade the stream and  
spear the fish. Tulley added forth  
expecting to encounter a baby whale.  
To his surprise he found his line enter-  
ing the bunglehole of a beer keg that  
lay in five feet of water. The keg was  
dragged ashore and found to con-  
tain a four pound catfish. Its release  
required the destruction of the keg.  
The fish had evidently made its home  
in the keg and eventually grew too  
large to pass through the bunglehole.  
How it procured food is a mystery.

Medicine Hat Times—A company is  
being formed in Medicine Hat to place  
a pleasure boat on the river for pleas-  
ure and commercial purposes. The  
boat will be about 100 feet in length  
and will be fitted up so as to be avail-  
able for conveying pleasure parties up  
or down the river and also for some  
freighting; to the settlements along the  
river. This will be a desirable adjunct  
to the city and will not only con-  
tribute to the pleasure of the people  
but will help the city commercially.  
About \$3,000 have already been pri-  
vately subscribed and Captain H. H.  
Ross will in all probability be offered  
the command.

WHEN MEN ARE SCARCE  
The Saskatoon Phoenix says: Incon-  
venience and delay caused by scarci-  
ty of men for the railway construc-  
tion and other work would soon be over-  
come if every lay in the land were to  
show the spirit of the husky ananias  
working on the Grand Trunk Pacific  
grading about thirty or thirty-five  
miles south-east of Saskatoon. A Sas-  
katoonian who drove out to that neigh-  
borhood this week says that this won-  
der is handling a team and scraper  
as ably as any of the men on the work.

Baltimore Times—Last week the coal  
mines at Taber were purchased by an  
American company, representing  
Pittsburg capital and the property will  
be taken over by the new owners on  
September 1st. Mr. Dixon, the man-  
ager for the new company, has already  
arrived and confidently expects to  
greatly increase the working force and  
output of the mine this season. Mr.  
Dixon resigned the superintendency of  
the Pittsburg coal company, the large-  
est coal mining company in the world,  
to accept charge at Taber.

The school debentures of Vegreville  
amounting to \$15,000 have been sold to  
a Regina firm.

James Williamson who owns a farm  
seven miles south of Calgary is said  
to have the cleanest and best culti-  
vated farm in Alberta. His crops com-  
prise great fields of oats, and wheat  
and all kinds of vegetables, such as  
potatoes, corn, celery, tomatoes and  
rhubarb.

## G. N. R. Wants Water

at Ranfurly Station

Work Commenced on Well 16 Feet in  
Diameter. To Much Soda in  
Lake Water

Ranfurly has been the scene of var-  
ied activities during the past week. The  
hum of the binder has been a familiar  
sound, and the grain will soon all be  
cut. Hay is well under way, and  
large stacks are to be seen in all di-  
rections. The farmers of this section  
have been experimenting in the pro-  
duction of the more delicate vegetation  
and as a result Mr. A. Watson has  
brought to Ranfurly desirable cucumbers  
and sweet corn. He states that he will  
have a good crop of pumpkins.

Duck season, opened with a ven-  
geance. Several sportsmen from Ed-  
monton and other points found their  
way to our ponds, and were fortunate  
in bagging a goodly number of the  
downy tribe.

The C. N. R. have commenced work  
on a well, the diameter of which is  
sixteen feet. They intend to find pure  
water at any cost. The present supply  
of water taken from Lake Elizabeth  
contains so much soda that it is  
unsuitable for steam purposes.

Mr. and Mrs. Lemieux, en route  
from Edmonton to their homestead  
near Mannville, camped in our village  
Friday night. They are going to make  
a specialty of poultry.

Mrs. W. Jones, and two girls, of  
Mattoon, Ill., arrived here last Thurs-  
day night. Mr. Jones is an ex-engi-  
neer on one of the American lines, has  
located on a homestead near Gilpin. He  
brought with him a car load of goods  
including stock and implements.

H. L. Smith of Iowa, was a visitor  
this week.

H. J. Fleming, J. Haggard, and  
Geo. R. Cross, of Wetaskiwin, were  
guests at Hotel Ranfurly this week.

T. S. Reid, of Edmonton, spent a few  
days this week with his sons Wm. and  
All. His daughter Hazel returned to  
the city with him Friday.

P. S. Shafer, of Edmonton, spent  
Wednesday in town.

J. S. Wood is having a cellar exca-  
vated under his store.

The Hotel Ranfurly changed hands  
this week. The new proprietor, Mr.  
George, of Lac Ste. Anne, took im-  
mediate possession. We bespeak for  
the new host a prosperous business.

While the farmer farms, the well  
man digs, and the business man trans-  
acts, the man whose heart has been  
pierced by Cupid's dart finds time to  
satisfy that longing. Such was the  
case with Mr. Edward Pilman of South  
Ranfurly who on Wednesday of this  
week scurried to Vermilion, when he  
was joined in holy wedlock to Miss  
Mabel Bourns of that place. They re-  
turned to their home south of the vil-  
lage in the evening, where a royal  
reception was given them.

Wedding bells are again ringing in  
the south land.

Mr. John Nisbet and wife, of Elk-  
hart, Ind. Mr. May of Elkhart, and  
Miss Emma Hunter, of Brazil, Ind.,  
arrived here last Thursday night. Miss  
Bunce expects to stay indefinitely,  
while the other members of the com-  
pany may or may not stay.

## Hammond & Co.

## City of Edmonton

NOTICE IS HEREBY GIVEN that  
the following By-Law is being en-  
forced:

### BY-LAW No. 274.

A By-Law respecting the installa-  
tion of water and sewerage services.  
Whereas a system of waterworks  
and sewerage has been established as  
a municipal system throughout a large  
portion of the town of Edmonton and  
it is in the interests of the public  
health of the residents of the munici-  
pality that all dwelling houses and  
other places used in whole or in part  
as dwelling houses and situated along  
the line of the water mains and sew-  
ers should be served thereby respect-  
ively.

Therefore, the Municipal Council of  
the Town of Edmonton, duly assem-  
bled enacts as follows:

1. Every owner of a dwelling  
house or other place used in whole  
or in part as a dwelling place situate  
along the line of any existing  
water main in the municipality shall  
before the 1st day of June, 1906,  
cause such dwelling house or other  
place to be supplied with water from  
such main by means of a water ser-  
vice in accordance with the provi-  
sions of By-Law No. 243 of the  
Town of Edmonton, entitled "A By-  
Law respecting the management and  
regulation of the Edmonton water-  
works and to establish a tariff of  
water rates."

2. Every owner of a dwelling  
house or other place used in whole  
or in part as a dwelling place situate  
along the line of any existing  
common sewer in the municipality shall  
before the 1st day of June, 1906,  
cause such dwelling house or other  
place to be served by a domestic sewer  
connected with such common sewer in  
accordance with the provisions of By-  
Law No. 240 of the Town of Edmon-  
ton, entitled "A By-Law respecting  
the construction of house sewer con-  
nections."

3. In the case of any extension of  
the now existing water mains in the  
municipality, the owner of every  
dwelling house or other place used in  
whole or in part as a dwelling place  
shall six months after any such ex-  
tension has been laid down along the  
portion of the street upon which the  
parcel of land upon which such dwell-  
ing house, or other place stands,  
abuts, cause such dwelling house or  
other place to be supplied with water  
from such mains by means of a water-  
service in accordance with the provi-  
sions of the said By-Law No. 243.

4. In the case of any extension of  
any existing common sewer in the  
municipality, the owner of every  
dwelling house or other place used in  
whole or in part as a dwelling place  
shall within six months after any such  
extension has been laid down along  
the portion of the street upon which  
the parcel of land upon which such  
dwelling house or other place stands,  
abuts, cause such dwelling house or  
other place to be connected with such  
common sewer in accordance with the  
provisions of the said By-Law No. 240.

### BY-LAW No. 72.

In case any owner of land shall  
fail to comply with the provision of  
this By-Law the City Engineer is her-  
by authorized to give any such owner  
notice in writing to comply therewith  
and in default of such owner com-  
plying with the work necessary to com-  
ply therewith within one week and  
bona fide continuing such work to com-  
pletion, the Engineer is hereby author-  
ized to do the work necessary for that  
purpose at the expense of the City and  
upon the work being completed the cost  
thereof shall be assessed against the  
land upon which the work is done in  
pursuance of Section 7 of Title XXII.  
of the Edmonton Charter as amended  
by Section 36 of Chapter 16 of the Pro-  
vincial Statutes of 1906.

(Signed) CHAS. MAY, Mayor.  
(Signed) GEO. J. KINNAIRD, Secretary-Treasurer.

Advocate for the Assignee.  
Edmonton 27th August 1906.

### NOTICE

Is hereby given that as Commissioner, representing the Government of Canada, I shall, for the purpose of meeting the Indians and Half-breeds with a view to the extinguishment of their claims to the territory lying between the eastern and northern boundaries of Saskatchewan, and the territory covered by Treaties 5, 6 and 8, be at the following points on or about the dates stated:

Portage la Loche, September 3rd, 1906.

Isle a la Crosse, September 13th, 1906.

Stanley, October 8th, 1906.

J. A. J. McKenna.

Ottawa, July 30th, 1906.

## Local Items Around the City

—Earl ray will arrive in the city Sunday evening at 10.15.

—166 new boxes have been installed in the city post office today.

—A safe has been added to the furniture of the post office.

—R. B. Daegle of Dunvegan is registered at the Windsor.

—Calgary baseball team are staying at the Windsor.

—Four large gangs of workmen are engaged between Edmonton and Winnipeg erecting coal chutes at the various divisional points, namely, Edmonton, Vermilion, Battleford, Humboldt, Kamsack, Dauphin, and Winnipeg.

—The C. N. R. has 150 cars of steel at Edmonton and 50,000 ties at Fort Saskatchewan ready for construction work on their western and northern extensions from here.

—The Canadian Northern Railway track laying machine finished last night laying the line from Battleford Junction to South Battleford, a distance of nine miles and is expected in Edmonton on Monday.

—The regular monthly meeting of the public hospital aid society will be held in All Saints school room on Monday September 3rd, at 3 p.m. A full attendance is requested.

—A new sidewalk has been completed on Bellamy street east of Kinslino, avenue and a crossing is being laid down across Kinslino.

—Mr. F. Schatner has just finished excavation work for his new grocery store on the corner of Isabella street and Ramapo avenue.

—L. Liefko, is building on the corner of Kinslino and Boyle a large two-story brick building which is to be used as a public bath house, where the public may obtain both Turkish and Russian baths.

—Mr. A. L. Vardon shipped a Case threshing outfit to Lamont last night to a company of all-India farmers. "I can't get out enough to fill my order. I refused three men this week. The factory can't make machinery fast enough for this country," said Mr. Vardon.

—The late C. A. Hyndman, Esq. is said to be the first Prince Edward Islander to be buried in the city. The funeral took place yesterday. The pall bearers being Messrs F. Perkins, B. Macdonald, M. J. Macdonald, Ewen, E. McDougall, Ronald MacMillan, and P. T. Fisher. All except Mr. Fisher were former residents of Prince Edward Island.

—Mr. C. Campbell of this city, says the best advertisement he ever saw was three years ago when a whole train of twenty-two cars loaded with Case threshing engines came into Winnipeg. The last flat car was fitted up with a steam organ that played "Yankee Doodle" and "God Save the King" alternately along the entire trip from Racine, Michigan, to Winnipeg.

—Fred T. Grenell, business manager of a musical comedy company is in town arranging for his company to appear in the Thistle theatre on September 11th and 12th. The company will play "Hooligan's Troubles" and "Alphonse and Gaston". The company had a good run in Calgary last season and return there after their engagement here. Speaking of the performance in Seattle the Times says:—"Hooligan's Troubles," the humorous comedy presented yesterday for the first time at the Third Avenue proved a great hit. From the rising of the curtain in the first act to the final number, the audience was kept in a roar of laughter and the many troubles of "Happy," who was always getting into trouble to add some one, won the sympathy of the house. The part was well played by Billy A. Ward who made a typical hobo of the Hooligan type. Others on the program formed one of the strongest casts seen at this house in some time. All attendance records were broken."

### GOOD CROPS AT VIKING

Mr. W. F. Watson of Viking, who has been in the city for the past few days was a caller at the Bulletin office yesterday. Mr. Watson is enthusiastic over the progress of the Viking district and its desirability as a place for settlement. He has spent some years in Australia and South Africa, but prefers this country and says there are greater opportunities in the Canadian West for young men.

Viking is on the G.T.P. survey, 48-12, and within the last year has become so popular that no land is available now for settlement. Every homestead is taken. The majority of the settlers are from the United States, who are in good circumstances and are well supplied with money and stock. Many of the farmers have as many as 100 and 120 cattle.

Mr. Watson reports the crops in excellent condition. The oat harvest which began on August 5th is now over and will yield from 75 to 90 bushels per acre. The spring wheat is all cut and is an immense crop which did not suffer in any way from either smut or rust. One farmer used 50 lbs. of twine in cutting 120 acres. The principal varieties grown are Preston and Red Pile. There was no lying grain and the crop was harvested in excellent condition.

Mr. Watson is of the opinion Viking is two weeks earlier than the Edmonton district. The soil is sharper and grows less straw, but gives as

great a yield of grain.

More prairie was broken this year than has been done in all previous years combined.

Threshing will not commence until the end of September.

Viking is waiting for railway and elevator facilities when it will become one of the busiest towns on the line. Meanwhile the citizens are actively engaged in breaking their lands and are happy with their prospects and achievements in Sunny Alberta.

### SOCIAL AND PERSONAL

Miss Hattie England of Regina is visiting in the city for a few days.

W. Safford Evans, formerly editor of the Winnipeg Telegram is a guest at the Alberta.

E. Grney of the Gurney Foundry Co. Toronto arrived in the city last evening and registered at the Alberta. Mrs. Gurney and Miss Gurney accompany him.

Mrs. Turnbull is entertaining at the tea hour today in honor of Mrs. C. W. Strath, who leaves next month for her new home in Winnipeg. Mrs. Harry Finch and daughter left last night, via C.N.R. for Winnipeg.

### ANOTHER LANDMARK REMOVED

On Friday evening last, there passed away in Edmonton, in the person of John L. McDonald of Stony Plain, a well-known person in connection with the up-building of the Stony Plain settlement. Mr. McDonald was born of Scottish parents in Prince Edward Island, some 51 years ago, and came west in the early seventies and spent a few years in Keweenaw, at which time the Canadian Pacific Railway was being constructed through that district and after which he spent some time in British Columbia.

In 1885 he came to Edmonton and settled on the Stony Plain, on the spot where the flourishing village of that name now stands. Mr. McDonald's health had become somewhat broken down at that time, having suffered from Asthma for some years, and lately a complication of other ailments having set in, no doubt brought about his untimely end.

At the time of Mr. McDonald's arrival here the settlement consisted of less than a dozen persons. In 1891 settlement practically began, with the advent of some twenty-five German families who had formerly located at Dunmore in Southern Alberta.

In 1892 Stony Plain post office was established with Mr. McDonald as post master and about the same time the first school district west of Edmonton was organized, in which Mr. McDonald took a very important part, as well as in the formation of the statute law district. In fact he took a leading part in anything and everything for the betterment of conditions in the neighborhood in which he had cast his lot.

In politics Mr. McDonald was a staunch liberal. He leaves a widow, two sons and four daughters to mourn his loss, who have the sincere sympathy of the neighborhood.

The remains were interred in the Spruce Grove cemetery on Monday. The funeral service was conducted by Rev. Dr. McQueen of Edmonton and Rev. James Bealt of Spruce Grove.

### AS THE WASHINGTON CORRESPONDENTS SAW US

The Washington correspondence have been saying all sorts of nice things about Canada since their return. Many of them are glad to have such a chance to test their vocabularies, and powers of description for what they saw in Western Canada was such as to almost baffle even a newspaper correspondent and one from Washington at that.

"I feel like Christopher Columbus, I have discovered a new America," said Edward J. Lowery of the New York Evening post. "It will make a great story. Today near Indian Head we saw a stretch of wheat thirty miles long six feet high and good for 45 bushels to the acre. Canada's wealth is assured as long as she has the Northwest. Canada, one might say, lies west of Winnipeg."

"I am dizzy looking at wheat" said Irving C. Norwood of the Washington Star. "I never had any idea of the extent of the country you have up there."

D. Hastings McAdam of the St. Louis Republican was most impressed with the wheat. "Wheat, wheat, wheat! Day after day, wheat, wheat wheat! The object of our trip was to learn more about the west where so many of our people are going. Actually some of us knew more about Europe than Canada. We didn't think there was much truth in this talk about Canada supplying wheat for the whole world. Why that country produces more grain than the Western States combined."

James L. Carmichael of the Detroit Free Press and one of the most versatile members of the party when asked his impression exclaimed "Fine and dandy!"

All were unanimous in their opinions the fertility of the soil and the bracing climate. This high testimony of Western Canada's resources cannot but be for our common good and engender a growing respect for Canada's promising future.

## THE BIG STORE

## NEW FALL DRESS GOODS

We are pleased to announce the arrival of our new stock of Fall and Winter Dress Goods. The range is very large and contains a good assortment of qualities and prices.

The following are a few of the many lines shown:
